Proposal: Replacement of 13 existing single glazed sash windows with double glazed units using 12mm sealed replica window framse and retention of window boxes.

(Please tick as appropriate)

We acknowledge the desire/need to install energy-efficient glazing and are concerned to ensure compliance with DP24.15 re sensitivity of replacements required.
We query whether use of Heritage double-glazing (6-7mm) panes would be more appropriate than the 12mm material shown.
Ensure there is no temptation to install single panes to each sash with glued-on glazing ~~bars~~ bars.
Also ensure there is no special eg. bottle or similar glass in the existing sashes which would be lost in replacement.
