Subject: 2021/2954/P Revised Selkirk House proposal

Dear David Fowler,

I would like to make an objection to the revised proposal which has an increased floor area and a massively increased carbon foot print.

This is not acceptable in this time of climate crisis, when we should be reducing CO2e emissions.

It is also harmful to the historic fabric of the city.

Please notify me of the Planning Committee date.

Thank you

Regards,

Alice Brown
