
This line indicates the perimeter of proposed new extension.

Its visual apperance will match the existing aesthetics and construction system of the Lockhouse building. It will be clad with the same grey metal cladding of the existing building.

The proposed sliding doors of the new extension, that will give access to the terrace, will match the construction system and visual apperance of the existing sliding doors.

The existing tiles of the terrace will be replaced. Material, dimensions and pattern to be confirmed. The proposed floor finish will not be seen from the street.

the existing sliding doors that give access to the terrace will be moved towards the western portion of the elevation.
