| 2022/4886/P            | miriam madar            | 09/03/2023 11:39:26 | COMMNT          | <p>There are no detailed structural reports or detailed structural drawings in the planning application for extension of the rear lightwell proposal. These need to be provided to protect the structural integrity of the neighbouring properties. There is risk of structural damage and therefore a construction method plan is also needed.</p> <p>There was no protection of the large trees before building work started. This has now been rectified.</p> |
