Dear Sir/Madam

Camden has been hit hard by tree felling due to HS2 and other developments.  
Please refrain from cutting down mature trees.

Pollution is killing 40 000 a year and making many others ill. ULEZ is not  
enough. Keep mature trees, let them self seed and plant saplings as well, not  
instead of, so we have a chance of breathing better air in London.

Thank you

Yours

S Marshall
