Please choose one

Objection

Do you have any comments or consider that the proposal is harmful to or does not preserve the character and appearance of the conservation area?

Objection We note that this building makes a positive contribution to the Conservation Area. The rear extension should not project into the garden any more than its neighbours'. Care must be taken to keep disturbance to the neighbours to a minimum. The rear bow should be retained, as stated on page 8 of the Design Access and Heritage Statement, not demolished as stated in clause 7.2 of the Basement Impact Assessment and Structural Method Statement. A statement should be provided showing how equipment and materials will be brought in and out. The glass doors should be framed in timber. David Thomas Chair
