To whom it may concern

I have decided to make my appeal short and simple .

Why will the council be cutting back/ down trees in a city, especially in a park area without plans to replant trees of the same size.

Why has no proper planning being done to replant the entire garden with big suitable trees?

Why do we need trees?

Privacy

Security

Noise barrier

Creates ambiance and atmosphere, that is why we chose to buy on the park!

Cities need more trees !

Best,
Annalize
