Subject: Objections to Landsec's O2 Site Plans

Dear all,

I'd like to notify you of my strong objections to Landsec's O2 Centre site plans.

I am a local resident (David Spence, 92 B Priory Rd, NW6 3NT).

My objections are bullet pointed below - I shall spare you the details of all of my thoughts, but to summarise, I view the plans as short-term profit motive driven which will likely be detrimental to the residents in the locale:

- * Overbearing height of constructs
- * Extreme habitation density
- * Burden on local social infrastructure
- * Ignoring the need for local amenities, especially for the children and the poorer members of society.

I fervently believe that this project must be changed. The people of Camden deserve medium-to-long-term planning - not this.

Sincerely, David Spence
