2022/4886/P	annabel bacal	14/03/2023 23:12:48	COMMNT	I am in full agreement with my neighbour ms madar that full investigations should be afforded regarding the lightwell - re potential impact to neighbouring properties.the application does not offer reports or methology how the lightwell will be constructed and the neighbours need to be reassured that no harm will come to their properties because of this proposed construction.
