2023/1013/P	Sandra Wheen	16/03/2023 11:01:15	INT	As a local resident I am concerned that a cost-cutting short-term solution is being proposed which will pollute the air of Bloomsbury and add to global warming for years to come. I would like to see Camden Planning take a stand and demand radically new energy policies from the University of London and UCL which dominate this area with their fossil fuelled air-conditioning.
