Subject: 2022/5639/P Cheat Meals 33 Goodge Street

[REDACTED]

As the owners of No 10 and No 3 Colville Place I should like to formally object to this retrospective planning permission.

The unpleasant odors in the street since Cheat Meals started operating are very noticeable and will be far worse in summer when windows are open. Our tenant has also commented that at No 10 the noise levels from the fans are noticeable from inside the house even when the windows are closed. The unvented open atrium with a permanently open sky light is polluting the whole area, which has a very high density of people living within the close vicinity.

Regards
Peter and Henrietta Fudakowski
