Planning reference 2022/0528/P - O2 Centre Masterplan - letter of support

Danielle  
NW2 3SP

Dear Planning Team

I am writing to let you know I find this system of sending 'support' for the O2 Centre Masterplan proposals planning reference number: 2022/0528/P immoral or at least highly deceptive.

In the face of widespread local opposition -to the loss of current facilities and to the massive scale of the housing proposals which people have reasonable concerns over - a glossy instagram ad of parks and green spaces, which leads people to this page with an auto filled message of support feels highly deceptive, and can not help Landsec's case for engaging positively with the local population.

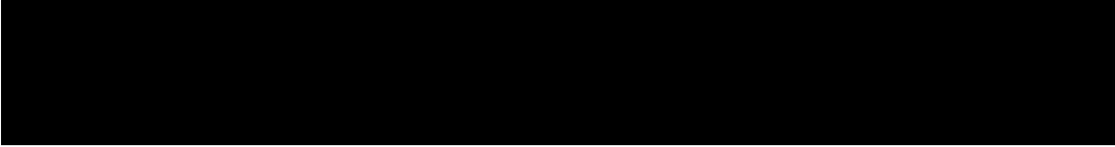

I personally don't fully oppose development of the site, but wish it is acknowledged how the O2 site is currently used, and the need of a supermarket of a decent size including a car park for those who need it. I think the housing development is too extensive, especially combined with other local developments, and will put to much of a strain on local resources.

Kind regards,

Danielle

Dear Planning Team

I am writing to support the O2 Centre Masterplan proposals planning reference number: 2022/0528/P. The current use of space at the centre is bad. It's so quiet now. I worked here 15 years and it's getting worse.

Kind regards,

Yeliz bilir
