Dear Mr Fowler

You have no doubt received many objections from the local groups and residents for the monstrous development in the grounds of O2.

As a resident of Hampstead for the past 55 years, let me tell you how disappointed I am that you would even allow a developer submit such a scheme which belongs to communist era of Romania! This proposal is in style of Nicola Ceauşescu!

Finchley Road is already troubled in many ways. Its troubles have only gotten worse by allowing ugly angled uneven new buildings, lack of trees or green space being created and no town planning or care. The problem with many of your colleagues is that they don't live in the area and have no affinity with it.

I very much hope that you outright reject this monstrous building application and maybe consider putting a school there instead!!

Thank you in advance for your care and attention.

Kind regards,

Maryam Irvani
