Objection

Do you have any comments or consider that the proposal is harmful to or does not preserve the character and appearance of the conservation area?

Objection We note that this building makes a positive contribution to the conservation area. The one new window instead of two should match the new small windows. The front garden wall should match no.45 with metal railings on the existing low wall. The black side gate, which is not shown on the drawings, is inappropriate. The new paving should be porous. David Thomas Chair BCAAC
