2023/0162/P	susan royston	21/03/2023 13:18:28	OBJ	<p>I have been in touch with architects Baynes & Mitchell re this application. They are aware that I object to a heat pump being placed so close to the boundary with my property, 21 Well Rd. It would sit only a few metres from my living area wall and beneath my master bedroom where any noise or vibration would certainly be noticed. Number 20 has a reasonably large garden offering a choice of other, less intrusive places for their heat pump. I see no necessity for it to cause nuisance to others.</p> <p>This pump is currently sited at the end of a pergola which is supposed to be under discussion. This is very close to the long side window of my property. As my only fenestration at that level any blockage is likely to affect my right to light. I'm concerned that the structure keeps appearing on the many applications made for number 20 who might consider it to have planning approval.</p>
