2023/0282/P	Kuki Sandhu	20/03/2023 22:13:10	COMMNT	<p>I am astonished that a listed balustrade is being proposed to be demolished and rebuilt, when it has not been proven that it needs to be replaced. There has been no proper monitoring of the cracks in the wall, and it is strongly believed that these works are not necessary.</p> <p>As a result of these proposed works over 20 mature trees and shrubs are to be cut down. This should not be allowed to happen, as it goes against all Camden Council and the London assembly guidelines. The cutting down on trees will cause added pollution. The Crown Estate Paving Commission has also refused to confirm that all the trees which are removed, will be replaced with other mature trees.</p> <p>The 2017 report carried out by Longstaffe-Gowan wants to cut down all trees in Regents Park gardens, which I find completely absurd.</p> <p>I would ask Camden Council to refuse this application.</p>
2023/0282/P	Drs Ian & Susan Owen	21/03/2023 12:40:30	OBJ	<p>We are residents in Chester Terrace. We currently benefit from the enjoyment of the wonderful gardens and in particular the mature trees in the Chester Terrace communal gardens.</p> <p>We are not in a position to comment authoritatively on whether the balustrade works are necessary. There appear to be differing technical opinions on this.</p> <p>However, we do wish to object in the strongest possible terms to the unnecessary removal of mature trees. We would have thought that any repair proposal should go out of its way to protect such trees. Instead the CEPC appear to be using the repair works as an excuse to implement the proposal by Longstaffe- Gowan which advocates the removal of all mature trees and shrubs from all the gardens of Regent's Park to return the look at the Terraces to that of the early 1800s!! It is hard to believe that anyone in any sort of authority in 2023 is advocating any removal of trees and shrubs from the world. Please will you do what you can to stop this application in Chester Terrace being a forerunner of even more destruction. The gardens are for the benefit of the residents of Chester Terrace and as far as we are aware no residents support the removal of trees in this way.</p> <p>Kind regards</p> <p>Drs Ian & Susan Owen Nash House 3 Chester Terrace</p>
