Subject: application for works to Tree /application ref: 2023/1119/t

Dear Sirs

I cannot understand why this application was made as the trees in question are not even close to the property of the applicant Not only they do not need to be reduced in any way but they are a great asset as they are providing all of us residents from the pollution of Finchley road and are a heaven for wildlife.

I understand that some basement or ground floor flats are dark and glooming in winter in particular when the weather is grey but the solution is certainly not to cut dawn precious useful trees

Andrea Bouras

Flat B 17 Lindfield Gardens
