Dear Ms. Gohin,

I am writing to express my great concern about the proposed permitted development related to planning application no. 2022/5583/p at 14 Greenaway Gardens.

I am deeply concerned about the impact of the extend of the excavation needed for this proposal. The excavation would disturb the soil and may damage the underground streams of the area. These streams are an essential part of the local ecosystem and must be protected from any harm. Moreover, this proposal would also harm the nearby trees, which are also vital for maintaining the biodiversity of the area, and any damage to them will be devastating (just very recently , in addition to many felled trees, a majestic old tree was brutalised on this site).

I urge you to consider the severe impact of this proposal that would have on the adjacent gardens, and the character of the suburban and conservation area of Hampstead. By allowing this proposal, the natural beauty and balance of the area will be jeopardised greatly.

I implore you to reject this proposal and protect the environment of Hampstead.

Thank you for your time and consideration.

Sincerely,

Leyla Ahramian
