Objection

Do you have any comments or consider that the proposal is harmful to or does not preserve the character and appearance of the conservation area?

Objection We note that this building makes a positive contribution to the conservation area. The existing lower ground and upper ground floor plans are transposed. The proposed extension should project no further than its neighbours'. The new lower ground floor doors should be in timber to match the existing. The new upper ground floor door should be full height with a false horizontal division to match the adjoining windows. Details of the proposed privacy screens are required David Thomas Chair BCAAC
