We are interested if they would carry an alcohol licence.</p> <p>Also there seem to be an incremental ask for changing the wall on the Colonnade side and move it beyond the current limits. We strongly oppose this ask as this change is impacting value of our property through several factors (more sq ft in the street, lighting and consistency of this historic street appearance). As well the incremental nuisance resulting from such change means destruction and reconstruction of the current wall and that stretches the time we have to undergo nuisances. Where can the residents log such opposition and who is deciding on it please?</p> <p>Thanks, Clara</p>
