2023/0313/P	Stuart Perry	02/04/2023 10:54:45	SUPC	<p>Happy to support the proposal, with the exception of the air source heat pump which I strongly protest against.</p> <p>My sleep is blighted by the heat pump that runs at Langtree House 19f, East Heath Road, NW3 1AJ, which backs on to the gardens on this side of Cannon Place; no matter what enclosures you put these things in there, it's a bass hum that travels long distances and through even modern double glazing.</p> <p>Further I would note that for the vast majority of the day you can stand on Cannon Place and it is totally silent, with the exception of birds tweeting. Introducing this unit would completely ruin the atmosphere, making it sound more industrial.</p> <p>While this particular unit may not affect the other end of Cannon Place my fear is that approving this ASHP would set a bad precedent for the area.</p>
