2023/0266/P	M IQBAL	18/04/2023 19:03:31	OBJ	<p>As a resident in the building attached and next door, my main concern would be noise.</p> <p>When works occur at Warren Court, the contractors often work outside of permitted hours including Sundays and late in the night when they should not be doing so. Safeguards need to be put in place as the noise and equipment such as drills penetrate and cause great disturbance. The developer needs to have an out of hours contact to deal with such matters and complaints when things need to be dealt with immediately as it is anti-social behaviour.</p>
