Subject: Planning Application - 2022/3853/P
Importance: High

Dear Planning Team,

I am writing to comment on the planning application 2022/3853/P.

I feel it's important I share my views and comment on this project.

With the restoration of the East Vaults and the installation of a new observation wheel it is very impressive to note the aim of the project is to work with a range of partners such as the Camden Black Creative, Pro Touch SA CIC (Community Sporting organisation), Camden People's Theatre, Camden Music Trust, Akademi (South Asian dance group), and ActionSpace (visual arts organisation which promotes artists with learning disabilities).

It is also an important consideration that the exhibitions spaces will not only provide an interpretation of the history of the area but allow showcasing of the significant musical heritage of Camden Town.

It is welcomed that the new development aims to offer space for key community festivals and local, national and international events such as: Black History Season, South Asian Heritage Month, Pride Month and Holocaust Memorial Day.

It is an impressive aim to ensure quality is prioritised in providing cultural and heritage experiences and it is welcomed that whilst every community festival may not be covered each year a rolling programme over a number of years would be introduced to ensure representation.

It is also noted that there will be a range of new technologies offered in order to stimulate learning in a qualitative way so the aim to use virtual and augmented reality technologies in the exhibition spaces is to be welcomed.

Regards

Ash Rahman
