Subject: Objection 2022/3853/P

Good morning,

Hope all is well

I am writing to you to object the planning application 2022/3853/P

The proposal of a new tourist attraction in this area will not only damage the heritage of Camden Lock but also its community, by attracting even larger numbers of people for which the area infrastructure is not prepared.

As a resident and architect, I strongly disagree with this project, which does not fit neither the scale of the area nor the people.

Hope you take the above into consideration.

Many thanks,

Kind regards

Maria
