Dear Mr Kresovic,

I wish to express my interest in the Camden Lock Market redevelopment scheme as I have been a resident of Camden for more than 10 years. The reason that I moved to Camden is because of the vibe of Camden Market. I strongly believe that the 40 Meters Ferris Wheel will create ample opportunities to the local community and more job opportunities.

I also think the opening of the dead dog basin is very significant – this has never really been accessible for visitors and as a Camden resident, by bringing this in it brings a new interest into the area. I also think the planned use of the basin is really exciting and I'm sure creatives in the area will welcome this.

KR
