Subject: Opposition to Camden Wheel - 2022/3853/P

To whom this may concern,

As a resident of Camden council, I would like to formally oppose the addition of a "temporary observation wheel" being built in Camden Market.

The Camden Market public transit system already struggles with the amount of traffic coming through the area. On a now regular occurrence people are shuttled into Camden Town Tube Station creating dangerous crowds of people by the Camden High Street Junction. The market already struggles with the amount of visitors coming through and the streets are often overcrowded.

Many Thanks,
Hannah Power
