Subject: Camden Market Application- 2022/3853/P

To Camden Council Planning Team,

I would like to express to you (the board) to please consider the Labtech redevelopment scheme. As a Market Trader, I cannot think of anything better to come to the Market. Throughout the years many things have changed to the way customers shop, due to covid there was a big influx to online shopping. Even after Covid it became very difficult as consumers had moved into this new era of 'shopping' which made it very difficult for us to compete. Although the footfall has increased, this is not anywhere near what it used to be. Which is why I personally welcome this new and fun feel to the Market. I believe it will increase footfall, and I love the idea of Dead Dog Basin being exposed to the public, this will bring and invite new attractions to us.

Please consider us highly!
