Subject: Objection to proposed Ferris wheel: 2022/3853/P

I am writing to object to the proposal (2022/3853/P) for a Ferris wheel to be built in Camden Market. The area is overcrowded and crime, mostly personal theft, is already rife there. A Ferris wheel will attract even greater crowds to a small area struggling to cope with the millions of visitors it attracts year-round. The litter, noise and general scruffiness of the area is already shameful and has a considerable impact on Camden residents and this proposal will only make all these things worse.
