Hi,

I'm emailing to express my concern and dismay about the proposition to build a ferris wheel in Camden Market.

The people who live near the market - myself included - already deal with an incredible amount of crowds. Not to mention the incredible view offered by the canal would be ruined by this hideous addition.

Camden Market is a unique, historical place and residents like me would hate to see it ruined by this tacky addition.

Please withdraw the plan to construct it or I will be moving, along with many of my neighbors.

Thanks.
