Dear Sir/Madam,

I am writing to express my strong objection to the proposed plans (application 2023/0446/P) to add a third story to the building at 8-9 Pratt Mews in Camden, London. As a resident of the mews, I have a number of concerns about this proposal, particularly with regards to the impact it will have on the surrounding buildings and the quality of life for residents in the area.

Firstly, the proposed addition of a third story to the building will result in the overshadowing of surrounding buildings, which will have a negative impact on the amount of natural light that reaches the apartments in the area. This will not only make the apartments darker and less inviting, but also impact the well-being of residents who rely on natural light to maintain their health.

In addition, the proposed plans will also alter the character and heritage of the area, which is an important consideration given the historical significance of Camden. This will undoubtedly impact the aesthetic appeal of the mews and the broader area.

Furthermore, I am concerned about the impact of the construction process on the local community, particularly the potential for noise, traffic congestion, and other disruptions. This will not only impact the residents of Pratt Mews but also other communities in the surrounding area.

In conclusion, I strongly object to the proposed plans (application 2023/0446/P) to add a third story to 8-9 Pratt Mews in Camden, London. I urge you to consider the concerns I have raised and take appropriate action to ensure that the quality of life for residents in the area is not impacted.

Thank you for your attention to this matter.

Sincerely,

Bruce Hazan
