Subject: Application reference number 2022/3853/P

Dear Camden

Please note my objection to the above planning application, for the ferris wheel in Camden lock market. As a lifelong visitor to the market, my father owns a business there and I live locally, I think this is an appalling proposal. The market used to be a place to buy unique crafts and clothes, it is being made into more and more of a disneyland tourist attraction, pushing out traders and reducing quality. This has no benefit to local business people nor residents, will be an eyesore and will make Camden market a laughing stock. There is already so much rubbish there, it is sad to see such an independent and vibrant market go downhill so fast. Please do not allow this additional eyesore in such a traditional part of the market and canal.

Best wishes
