Subject: Fwd: Camden Market Application- 2022/3853/P

Dear Council Planning Team,

I write this letter in order to support the application put forward by Labtech to redevelop the market and bring new life to the area and to the Market in general.

Being an FnB Market trader from 2016, I can not think of any reason not to support this scheme.

The biggest and most exciting move from this scheme for me is the proposed opening of Dead Dog basin!

I cannot express how massive this will be for not only myself and my fellow traders but also Camden itself.

Opening the basin attracts new guests and offers a new attraction in the area for more regular attendees. All of this means of course – you guessed it, a higher footfall in the market, so more sales for us

Please make this happen.

Sincerely,

Beata Soja
