Subject: Make better Camden market

Dear Council Planning Team,

I write this letter in order to support the application put forward by Labtech to redevelop the market.

Being an FnB Market trader, I can not think of any reason not to support this scheme.

This will be not only for myself and my fellow traders but also Camden itself, new guests and it offers a new attraction in the area for more regular attendees.

A higher footfall in the market, so more sales for us

Sincerely

Kyoungmin Kim
