For the attention of Moji Puckett,

21st April 2023

Our reference: QF11023-CH-QT-0001
Revision: R01
Subject: 83 Belsize Park Gardens, London.

Moji,

Further to our recent email correspondents, please find our proposal and quotation for the acoustic enclosure required on the above project. We have based our enclosure design on the revised clement acoustic report 18275-NIA-01-RevA dated 6th April 23.

QUOTATION

Fujitsu ASHP WOYK160LCTA, airflow of 1.92m³/s, size 900mm wide x 370mm deep x 1290mm high.
Sound pressure level 58dBA @1m.

To design, supply, deliver to site and install an Emtec LAAC30.105 acoustic louvre enclosure having an overall size of 2255mm long x 1170mm deep x 1900mm high. The four sided enclosure will comprise of Emtec LAAC30.105 acoustic louvres to the sides and front, whilst the roof and rear panels will be Emtec PAC30 solid acoustic panel. Fresh air will enter the enclosure via the side louvres whilst the hot discharge air will exit via the acoustic louvre at the front. The front louvres will be hinged to allow for maintenance access. We have also included for a flexible connector fitted between the front of the ASHP and the rear of the discharge louvres in order to eliminate recirculation of hot exhaust air within the enclosure. Anti-vibration mounts included.

The attached Emtec drawing QF11023-EMT-XX-DR-0001-R00 provides an indicative overview of the proposed enclosure.

Price for above enclosure: (Supply, deliver & installation)

300mm deep acoustic louvres are required on this enclosure due to the noise level of the ASHP. If a quieter unit is chosen then it could potentially reduce the amount of attenuation needed.

Further Qualifications

For the purposes of installation, we have included for delivery to site, distribution from the delivery vehicle to the property and all tools necessary to carry out the work.

Emtec Products Ltd

The external surfaces of the enclosure will be polyester powder to a standard, non-metallic RAL colour of your choice. Any metallic and special architectural colours/finish will be charged at an additional cost.

The enclosure will need to be mounted on a solid flat level surface, ideally concrete. We have not included for this and would require this to be carried out prior to the installation of the enclosure.

Terms and Conditions of Quotation

- Validity : Prices are fixed for acceptance for 30 days.
- Drawings : 2 - 3 weeks from receipt of order.
- Delivery : 6 - 7 weeks from approval of drawings.
- Carriage : Included.
- Installation : Assumes free and unrestricted access to site, uninterrupted working between 0800 and 1730 Monday to Friday excluding Bank Holidays, free use of 110V/240V electricity supply within 15m of all points of installation and that all site preparation and disconnection of services will be carried out prior to the arrival of Emtec Products Ltd. on site.
- Exclusions : All craneage, lifting and scaffolding.
All builderswork, including making good.
