I am writing to object to the 'Theme Park' plans in Camden Market. As a local, I feel very strongly about this matter

Why are we opposed to the wheel?

1. Harmful impact on the 6 Listed building in the Regent's Canal Conservation Area. **We should be preserving historical buildings in conservation areas!**

2. The wheel will be 40 metres tall allowing people to look into our homes resulting in loss of privacy! **We don't want people staring into our windows!**

3. The impact of significantly larger crowds descending into the area - strain on roads and transport. **The area is crowded enough as it is!**

4. We agree with the metropolitan Police that more visitors will increase potential crime levels.

Thank you,

Cerys Smith
