Subject: Ref: 2022/3853/P objection

Dear Sir / Madam and Team,

I am writing to object to planning ref no. 2022/3853/P the Ferris wheel.

This is a terrible idea for an already crowded and commercially dominated area.

As a lifetime Camden resident I object to more commercialization of the market and local area.

This development will be harmful to the listed buildings onsite in the Regents Canal conservation area.

It is also a huge development which will dominate the area and cause privacy issues for local residents. As someone who is already being potentially subject to the Highline - another terrible idea for Camden residents and a loss of personal privacy, I feel a lot of sympathy for locals living close to this proposed monstrosity.

More crowds, more people = more noise, pollution and crime. Not great where we already as Camden market locals already experience this from the existing market set up. No more please!! There's already a proposal to put two zebra crossings by Camden Gdns. This will pretty much halt traffic to the detriment of local residents clean air as traffic won't move. More people means more crowds and more slow moving traffic. Again, no more. We have large coaches already piling out visitors to the market on Hawley Road. Enough is enough. Time to think of residents, not just commerce. Camden is a place for people to live, not just 24/7 businesses.

I hope you do the right thing and scrap this proposal and deny it.

Kind regards,

Natalie Kearney
Ivor Street
