As a Camden resident, I strongly object to the proposed theme park to be built in Camden.

Number 1: It will have a harmful impact on the 6 listed buildings in the Regent's Canal Conservation Area which we should be preserving.

Number 2: It will have an impact of a significant amount of people descending into the area which will put a strain on roads and transport.

Number 3: I agree with the Metropolitan Police that more visitors will increase potential crime levels.

Please consider to keep Camden safe and care for our community.

Thank you.

Kind regards,

Isabelle
