Hi there

I would like to strongly object to the ferris wheel being built in Camden Market. I am a Camden resident and this will be detrimental to our lifestyle and enjoyment of our neighbourhood for several reasons:

1. Harmful impact on the 6 listed building in the regents canal conservation area
2. The wheel will be 40 metres tall and be able to look into homes which will mean loss of privacy!
3. The crowds will get significantly larger - it is already SO crowded!!! It is almost impossible to travel.
4. The Met Police have said that increased crowds will mean more crime in the area.

PLEASE prevent this happening.

Best,  
Camden Resident  
Isabelle Francke
