Subject: Ferris wheel at Camden lock

Planning Ref. no. 2022/3853/P

I am writing to object in the strongest possible terms to this totally misguided idea.

Camden Town is unsuitable in every way for this sort of entertainment -

- the Underground station is inadequate, as it is, for the crowds who already come here at weekends;
- the Lock Market fills to capacity the site next to the canal;
- the Market is already one of the most popular tourist attractions in London, there is no need for further temptations;
- far from improving the area, a Ferris wheel would be totally out of place and an anomaly to the sort of atmosphere which the Market aspires to.
