Subject: Objection to planning application ref 2022/3853/P

Hello,

May I record my objection to the proposed ferris wheel in Camden Lock?

We are already overloaded with tourists - allowing this disproportionately massive structure to be built would increase those number and put even more strain on roads and public transport. As residents with parking permits, it is already very hard to find a space on Saturdays and Sundays due to the number of visitors who drive to Camden due to overcrowded tubes and buses - the extra pollution is not welcome.

Huge numbers of visitors also attracts criminal behaviour such as drug dealing and pickpocketing - building this so called attraction would add to crime. Litter too, already at horrible levels each weekend (attracting rats) would increase.

I urge the council to refuse this application.

Could you confirm receipt of this objection please?

Regards,

Steve Outerson - resident
Hawley Rd
