Subject: Ferris Wheel in Camden

To Camden authorities:

With this letter i would like to protest the proposal to add a Ferris wheel to the already crowded area of Camden Market and surroundings. This is both an an active tourist site and a busy residential area. Adding such an intrusive object to the local scene is inadmissible and offensive to the environment. It will decrease privacy and safety.

Please do not approve the addition of a noisy and dominant landmark to our Camden community.

With thanks,

Beth Johnson
