Planning and Listed Building Consent Application
for Replacement of back garden door

Submitted 30 April 2023

By Boaz Yariv owner of Flat 1
48 Kentish Town Road
London NW1 9PU

I purchased this flat 2 years ago and am concerned by the security of the existing aluminium glazed door and its energy performance also.

I request permission to replace it with a more up to date aluminium door coloured RAL 1011 that should blend better with the brickwork of the existing extension.

Although the property is listed, I believe that the extension from the 70s is not part of the listing. The door in question is very private, at the back of the building, and the modification would not affect the public perception of the building in any way.

I placed an order with IDS (whose door details are enclosed) and it is provisional upon approval of this application. I would be most grateful for permission to proceed.

Thank you,

Boaz Yariv
