

GRXS Sedum Blankets

Our sedum blanket seed mix is developed from the below list of species, and are suitable for low-depth substrates (<60mm), with advice from university experts to ensure the maximum biodiversity, establishment, and survival at roof level.

-Species availability may vary depending on growing period and varying factors such as sunlight/shading, and biodiversity requirements.

All our blankets are bedded onto a coconut fiber mesh, rolled up and delivered on Pallets.

Species Code	Common Name
SA 328	Sedum Album
SA 352	Sedum Hybridum
SA 348	Sedum Floriferum
SA 368	Sedum Ellacombianum
SA 369	Sedum Selskianum True
SA 359	Sedum Pulchellum
SA353	Sedum Middendorffianum
SA 355	Sedum Montanum
SA 354	Sedum Montanum Orientale
SA 371	Sedum Sexangulare
SA 320	Sedum Acre
SA 376	Sedum Spurium 'coccineum'
SA 364	Sedum Reflexum
