I would like to oppose the wheel park.
The reasons follow below:

1. The harmful impact on the 6 listed buildings in the Regents Park; Conservation area
2. the wheel will be 40 meters tall allowing people to look into our homes resulting in a loss of privacy;
3. the impact of significantly large crowds descending into the area strains roads and transport
4. We agree with Metropolitan Police that more visitors will increase potential crime levels;
5. Lose the identity of Camden Town as an alternative and great music place to see;

Place take it into account as we don't want more messy around the town.

thank you!
