Dear Sirs

CRASH (Combined Residents' Associations of South Hampstead) objected to the original application for this site (2019/6394/P) and remains in opposition to the scheme. The slightly-altered new proposal is still twice the size of the existing garden room with consequent loss of valuable green and bio-diverse habitat - a loss that will not be remedied by the proposed sedum roof (a hedgehog can't make a home on a sedum roof). CRASH also has reservations about the use of grey paint on the rear and right-flank elevations of the structure. This unattractive finish will be visible above the boundary fencing by neighbours next door and opposite.

CRASH **objects** to the application.

Regards

CRASH
