**Subject:** objection to 2022/3853/P

I am writing to object to the Ferris wheel proposal in Camden 2022/3853/P. In my view this is an inappropriate addition to the area.

- It has a harmful impact on the listed buildings on Regent's Canal.
- It negatively impacts privacy of nearby buildings
- It will increase crowding and strain on the roads and tube station - both of which are already severely overcrowded
- It will increase crime in the area. I was recently mugged nearby in Gloucester crescent, so am particularly aware of the impact of petty crime.

I feel that Camden should be a place to live and work, not a theme park. I strongly object to the Ferris wheel application.

Best wishes,

Hugh
