Subject: Reference 2022/3853/P FERRIS WHEEL ??

Hi

I have lived in Camden Town for almost 24 years. 3 blocks from Chalk Farm road / Camden High St.

I loved it when I moved here in 2000. Now? Not so much.

Everything has changed so much and not for the better. The constant building, tearing up the same roads over and over, its never ending it seems. And the Camden Market has become a zoo. Too many shops, too many people, nowhere to park.. garbage everywhere.

Basically Ive seen my neighbourhood become a FUN FAIR for tourists and is just ridiculous.

So when I got this reference thru the post, I actually thought it must be A JOKE!

SO I am writing to say.. PLEASE DON'T PUT A MASSIVE THEME PARK RIDE ON THE CAMDEN CANAL AS ITS ALREADY CHOCKERS.

A FERRIS wheel of soaring glass pods is being planned for the heart of Camden Lock's markets in a bid to entice visitors back to the area as it recovers from the pandemic, the New Journal can exclusively reveal. 10 Jun 2021

And In case you haven't noticed people are already back. **This kind of thing is simply not needed..**

In the picture below you have not shown what it would look like with endless lines of people waiting to get on this silly ride. And the area is a lot smaller than it is depicted here

PLEASE STOP BUILDING UNNECESSARY STUFF IN MY NEIGHBORHOOD!

The skylines along the canal are slowly being filled with massive new glass office structures.. the last thing I want to see is a Ferris wheel.

<https://clmconsultation.co.uk/>

In addition, we have exciting plans for a new temporary Observation Wheel that will capture the imagination of a wider London audience, attracting people of all ages and diversifying the markets' audience.
