Dear Camden Planning department

I have been a resident of the Camden Town area for over 10 years.

I am writing to you to strongly object to the plans for the Camden Market Ferris Wheel.

The area is already overly saturated with tourism, the local community is consistently being forgotten. The plans to erect a ferris wheel will only exacerbate the problems the local community face.

Human traffic to the area will increase, leading to even more congestion and pollution. Access for local residents to public transport will become even more difficult. Crime rates will no doubt rise due to the influx of people.

The area desperately needs investment to improve the quality of life for residents and the quality of the experience for tourists. The wheel will do the opposite of achieving these goals. It will turn the area into a theme park. The character and heritage of the area should be preserved and nurtured, not destroyed and manipulated into becoming a theme park.

I hope my point of view will be heard and listened to.

Yours sincerely

Barry Tulip

Flat 3, 48 Kentish Town road.
