Dear officer,

I'm emailing you to advise you of my support for the Observation Wheel at Camden Lock. I have grown up & stayed a local resident for 27 years, predominantly in NW5. I can speak for many residents that we have seen many upgrades/improvements within the market itself. It has become more safer & cleaner for all not just residents but also people passing through the borough thus improving the quality of life here. The markets provide a lot of opportunities for local people and business. But not all have access to the same support such as Independent business so need some encouragement & support. That's the reason why I write this letter of support. Hope this was helpful & to hear back from you soon.

Regards,

Joynul.
