2023/1671/P	Nika	13/05/2023 07:18:03	OBJ	<p>This extension bears risk for the properties either side - both 30 and 34 willoughby road.</p> <p>30 willoughby road has existing subsidence issues and a willow tree that is deeply and widely rooted. We have been told that any movement to it could lead to a catastrophic outcome. Its root position runs under the entire foundation of 30 willoughby road and potentially further.</p> <p>Therefore, any basement extension plans should be rejected due to the safety of the properties either side. These Hampstead homes are old and their ability to withstand such an extension creates a deep concern for the attached houses either side.</p>
